

## **IRC CANADA**

John Crawley - IRC measurer and representative of the International IRC Owners Association, Lake Ontario Fleet.

The Lake Ontario IRC fleet is down to 27 Canadian boats and about 3 or 4 US boats. There are 4 two day open regattas and 2 one day open regattas from May to September in the Toronto area, plus one regatta in late July or early August that moves around the lake to a different host club each year. The majority of boats racing in these events are One Design boats, with a very small percentage of handicap boats, mainly IRC with a few boats racing under our local PHRF rule.

The local IRC fleet is losing the smaller 30 ft boats but gaining 40 ft and larger boats.
