

IRC 2019 Report

In 2018, with our teams' promotion and efforts from the race organizer, there are 50 active boats are holding IRC Endorsed Certificates. It seems there is a small number drop compare with last year, but definitely there are more and more owners realize the consequence and importance for an Endorsed Certificates. There are more boats get weighed right before the Around Hainan Regatta at the beginning of the year.

2019 will be the 10th anniversary of IRC entering China since March 2009. In the last ten years, with the supports and efforts of all owners, sailors and our team, IRC has covered more than 90% of the regattas in China. Here, we would love to express our heart-felt gratitude to all the people who helped and supported the development of IRC in China. We are looking forward to serving all the sailors and race organizers in the future.
